SCHEDULING

High school students received their draft schedules. Most are pretty solid based on requests and needs to be on track for graduation. If students need to make adjustments, please have them submit schedule requests prior to the last day of school - June 4. Students must submit the request through their Pottersville email account.

Middle school students in 6th and 7th grade need to submit their elective requests by June 2. We had to switch to paper due to the internet outage. Middle school students in grade 5, there was a Google survey to determine if you wanted band next year or not. That is the only elective choice.
