

POTTERVILLE PUBLIC SCHOOLS

BOND PROPOSAL IMPROVEMENTS

Election Day: Tuesday, August 3, 2021

DISTRICT CAMPUS IMPROVEMENTS

Our community will have the opportunity to vote on a Pottersville Public Schools bond proposal on the August 3, 2021 election ballot.

If approved, it would provide \$28,000,000 for building and site improvements to address identified and ongoing facility needs based on facility assessments and community input.

ELEMENTARY SCHOOL

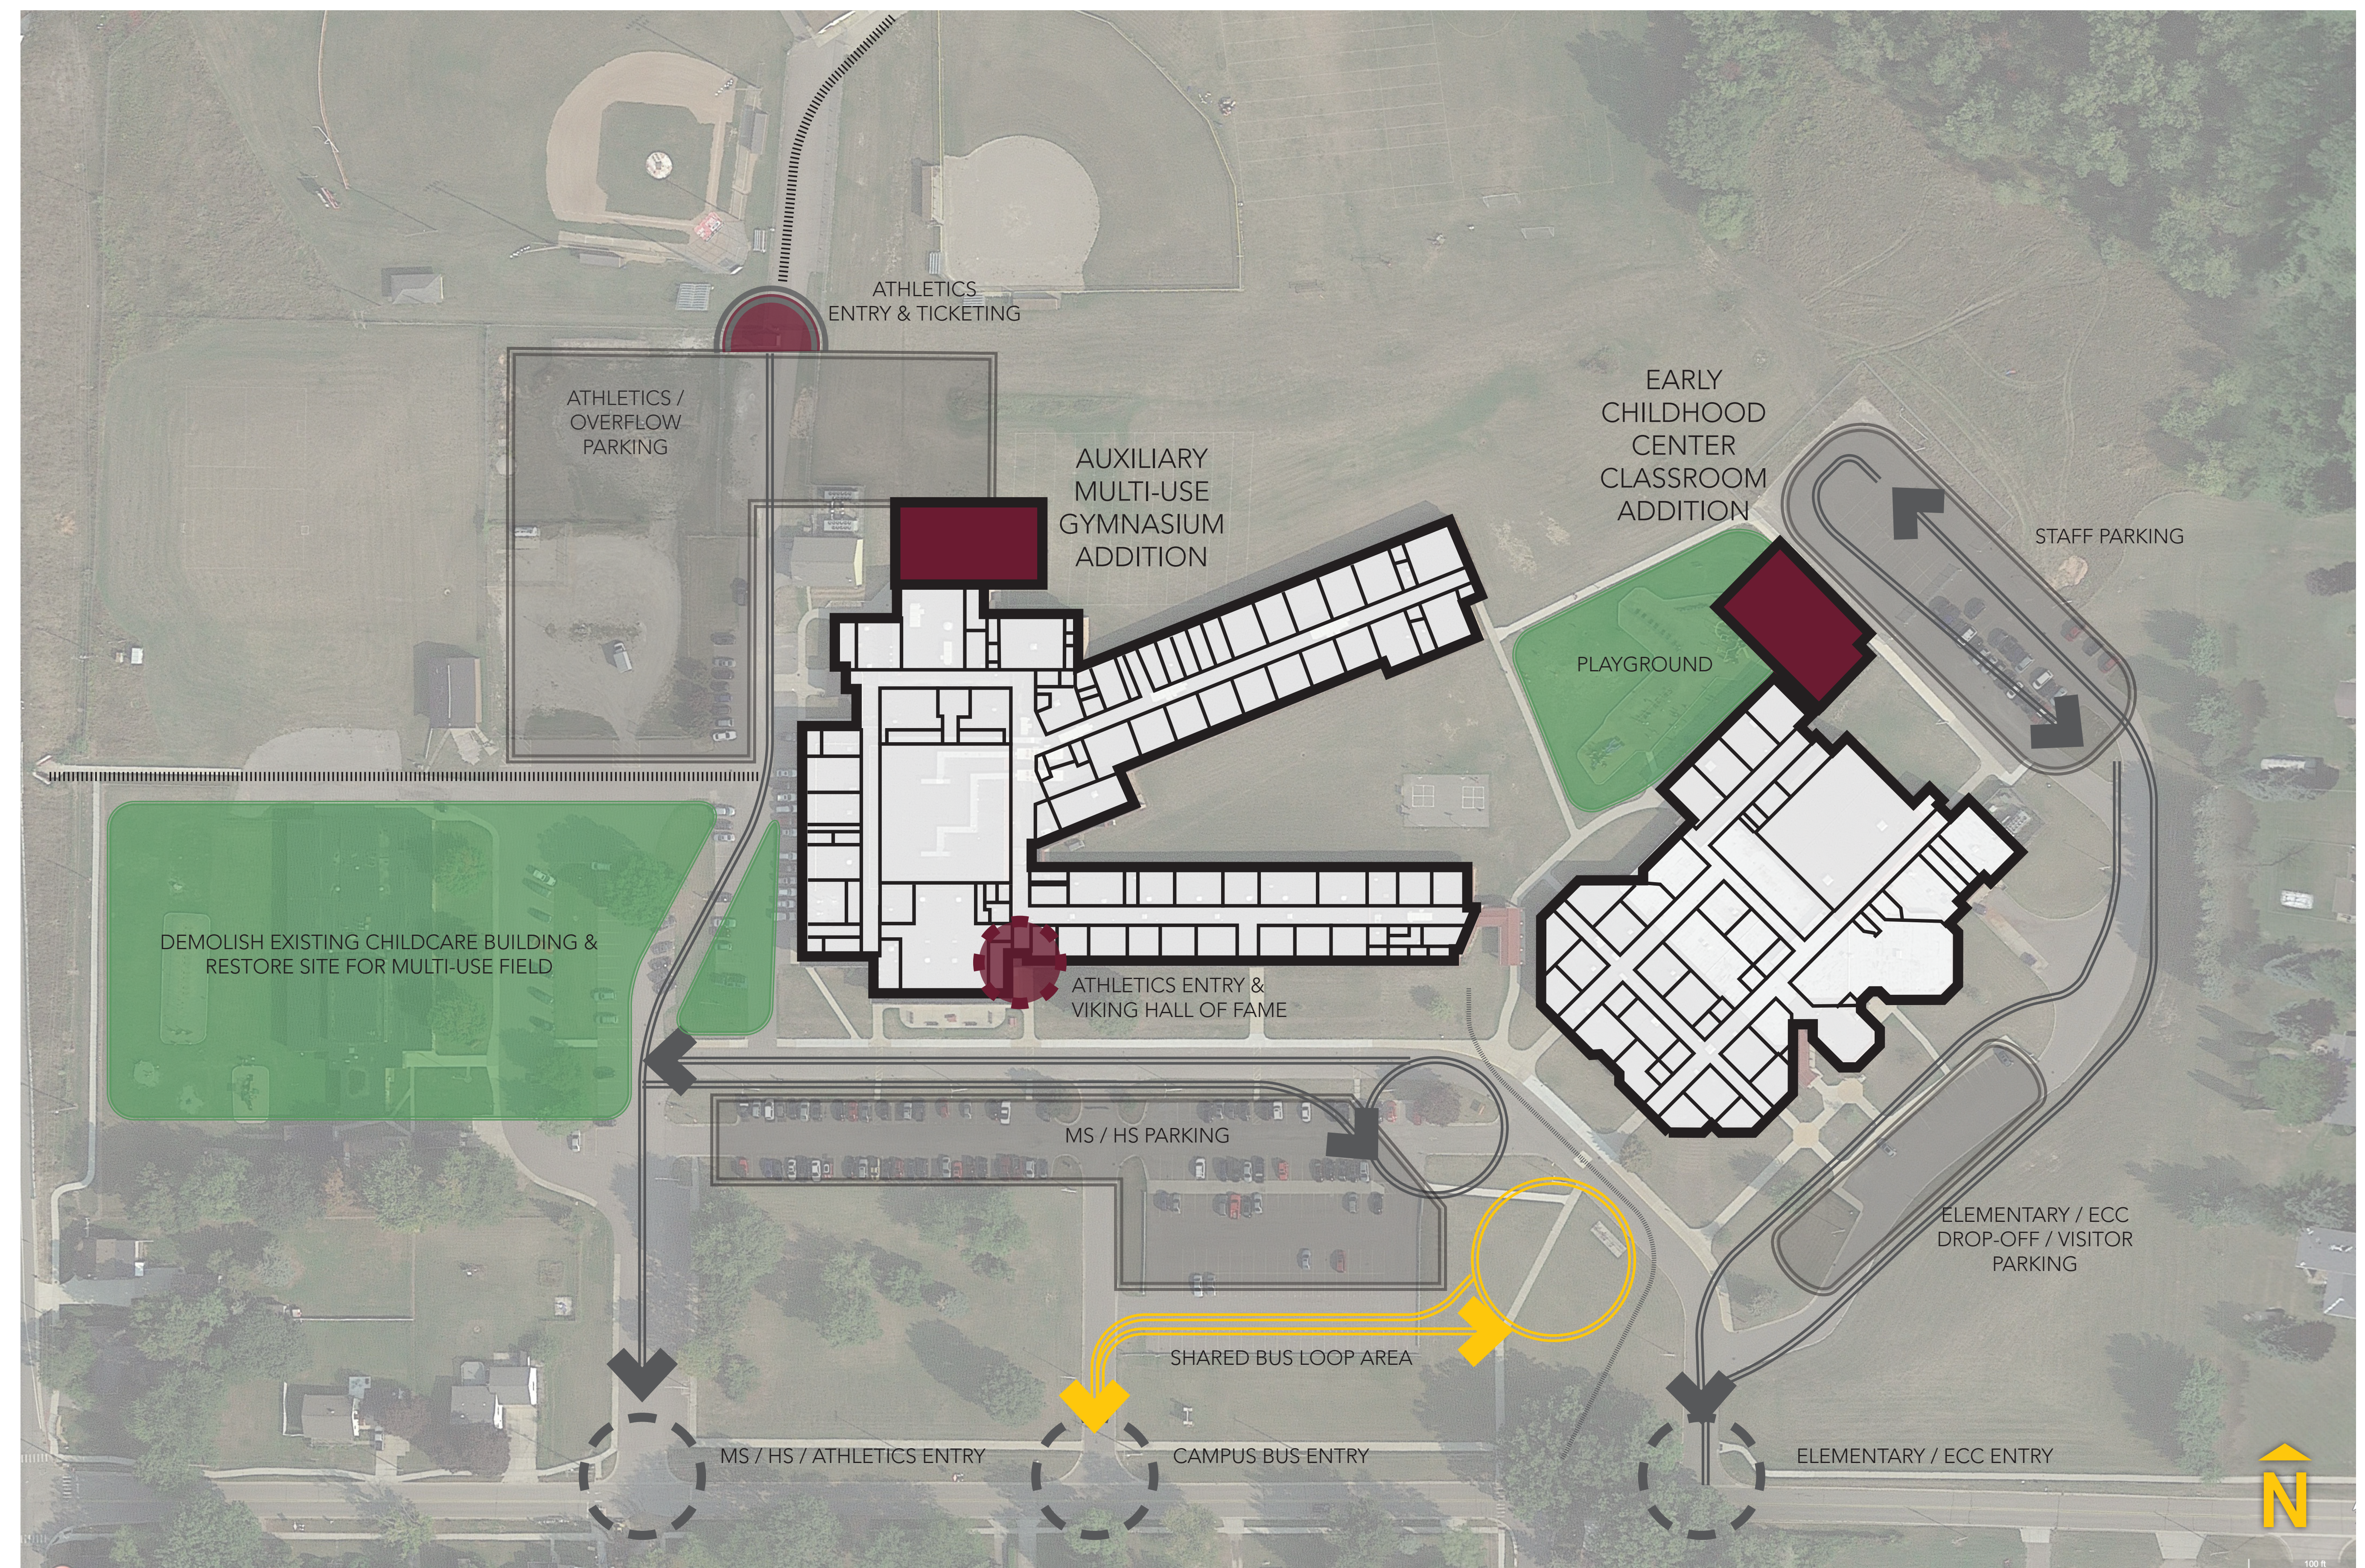

- Constructing an early childhood center addition with multiple classrooms. Adding the early childhood programs to the Elementary School would allow the district to share educational resources and staff, and would serve infants, toddlers and preschoolers in the same building where they would later attend kindergarten
- Early childhood center spaces would be designed to support the educational and related developmental needs of our earliest learners
- Demolition of existing childcare building, originally built in 1954
- Playground improvements at early childhood and elementary school
- Upgrading classroom furniture and equipment
- Replacing selective flooring, ceilings, casework, and doors, as needed
- Replacing aged gymnasium equipment
- Replacing interior lighting, fire alarm system, and Building Management System and new access controls to improve energy efficiency

MIDDLE SCHOOL / HIGH SCHOOL

- Constructing an auxiliary gym as an addition to the High School to serve as a multi-use facility to serve our fine arts programs and athletics
- Remodeling the athletic entrance to improve the safety and function, and add a Viking Hall of Fame
- Upgrading selective furniture and equipment
- Converting classroom to conference room and central office support space
- Roofing improvements
- Replacing selective flooring and ceilings, as needed
- Replacing interior lighting, fire alarm system, and Building Management System and new access controls to improve energy efficiency

CAMPUS / ATHLETICS

- After demolishing the existing childcare building, the site would be restored to create a new multi-purpose athletic field for band practice, PE classes, and community athletic use
- Improving pedestrian and vehicular safety by reconfiguring drives and campus parking lots
- New LED site lighting
- New stadium entrance plaza and ticket booths to enhance safety for school events
